McGrath 

The original version of this article contained an error in the second paragraph of the ‘Assay of DBP concentration’ section of the ‘Methods’, which incorrectly read ‘The lower and upper detection limits for DBP were 2.07 and 79.8 mg/L respectively’. The correct version states ‘2.07 µg/L’ in place of ‘2.07’. This has been corrected in both the PDF and HTML versions of the article.
