Publications

INSPIRE, a publicly available research dataset for perioperative medicine

Lim, L., Lee, H., Jung, C. W., Sim, D., Borrat, X., Pollard, T. J., Celi, L. A., Mark, R. G., Vistisen, S. T. & Lee, H. C., Dec 2024, In: Scientific Data. 11, 1, 655.

Shedding Needed Light on a Black Box Approach to Prediction of Hypotension

Vistisen, S. T., London, M. J., Mathis, M. R., van Klei, W. A., Huzurbazar, S. & Jacquet-Lagrèze, M., Sept 2024, In: Anesthesiology. 141, 3, p. 421-424 4 p.

Natural language processing for electronic health records in anaesthesiology: an introduction to clinicians with recommendations and pitfalls

Bernstorff, M., Vistisen, S. T. & Enevoldsen, K. C., Apr 2024, In: Journal of Clinical Monitoring and Computing. 38, p. 241-245

CON: The hypotension prediction index is not a validated predictor of hypotension

Vistisen, S. T. & Enevoldsen, J., Feb 2024, In: European Journal of Anaesthesiology. 41, 2, p. 118-121 4 p.

The effects of respiratory rate and tidal volume on pulse pressure variation in healthy lungs-a generalized additive model approach may help overcome limitations

Enevoldsen, J., Brandsborg, B., Juhl-Olsen, P., Rees, S. E., Thaysen, H. V., Scheeren, T. W. L. & Vistisen, S. T., Feb 2024, In: Journal of Clinical Monitoring and Computing. 38, 1, p. 57-67 11 p.

Combined effects of methadone and quetiapine on respiratory rate, haemodynamic variables, and temperature in conscious rats

Andersen, F. D., Steffensen, S. C., Vistisen, S. T., Pinilla, E., Pedersen, T. M., Matchkov, V., Simonsen, U. & Andersen, C. U., Sept 2023, In: Addiction Biology. 28, 9, 9 p., e13320.

Individualised perioperative blood pressure and fluid therapy in oesophagectomy – study protocol for a randomised clinical trial

Hovgaard, H. L., Vistisen, S., Enevoldsen, J., de Paoli, F., Scheeren, T. W., Katballe, N., Kjaer, D. W., Linnemann, G., Jørgensen, M. R., Karaliunaite, Z., Jeppesen, A. N. & Juhl-Olsen, P., Apr 2023, In: Danish Medical Journal. 70, 5, A10220640.

Selection Bias in the Hypotension Prediction Index: Reply

Enevoldsen, J., Hovgaard, H. L. & Vistisen, S. T., Apr 2023, In: Anesthesiology. 138, 4, p. 450-452

Sensible and simple prediction models should always be reported for reference when reporting advanced prediction models

Vistisen, S. T., Hovgaard, H. L. & Enevoldsen, J., Mar 2023, In: European Journal of Anaesthesiology. 40, 3, p. 216-217 2 p.

Using generalized additive models to decompose time series and waveforms, and dissect heart–lung interaction physiology

Enevoldsen, J., Simpson, G. & Vistisen, S. T., Feb 2023, In: Journal of Clinical Monitoring and Computing. 37, 1, p. 165-177 13 p.

Artificial intelligence in the clinical setting: Towards actual implementation of reliable outcome predictions

Vistisen, S. T., Pollard, T. J., Harris, S. & Lauritsen, S. M., Sept 2022, In: *European Journal of Anaesthesiology*. 39, 9, p. 729-732 4 p.

Performance of the Hypotension Prediction Index May Be Overestimated Due to Selection Bias

Enevoldsen, J. & Vistisen, S. T., Sept 2022, In: *Anesthesiology*. 137, 3, p. 283-289 7 p.

Changes in arterial blood pressure characteristics following an extrasystolic beat or a fast 50 ml fluid challenge do not predict fluid responsiveness during cardiac surgery

Berg, J. M., Nielsen, D. V., Abromaitiene, V., Hjørnet, N. E. & Vistisen, S. T., Jun 2022, In: *Journal of Clinical Monitoring and Computing*. 36, 3, p. 889-900 12 p.

What is new in hemodynamic monitoring and management?

Flick, M., Bergholz, A., Sierzputowski, P., Vistisen, S. T. & Saugel, B., Apr 2022, In: *Journal of Clinical Monitoring and Computing*. 36, 2, p. 305-313 9 p.

Existing fluid responsiveness studies using the mini-fluid challenge may be misleading: Methodological considerations and simulations

Enevoldsen, J., Scheeren, T. W. L., Berg, J. M. & Vistisen, S. T., Jan 2022, In: *Acta Anaesthesiologica Scandinavica*. 66, 1, p. 17-24 8 p.

Kinetics of 2 different high-sensitive troponins during targeted temperature management in out-of-hospital cardiac arrest patients with acute myocardial infarction: a post hoc sub-study of a randomised clinical trial

Larsen, A. I., Grejs, A. M., Vistisen, S. T., Strand, K., Skadberg, Ø., Jeppesen, A. N., Duez, C. H. V., Kirkegaard, H. & Søreide, E., 2022, In: *BMC Cardiovascular Disorders*. 22, 1, 10 p., 342.

Current use of inotropes in circulatory shock

Scheeren, T. W. L., Bakker, J., Kaufmann, T., Annane, D., Asfar, P., Boerma, E. C., Cecconi, M., Chew, M. S., Cholley, B., Cronhjort, M., De Backer, D., Dubin, A., Dünser, M. W., Duranteau, J., Gordon, A. C., Hajjar, L. A., Hamzaoui, O., Hernandez, G., Kanoore Edul, V. & Koster, G. & 23 others, Landoni, G., Leone, M., Levy, B., Martin, C., Mebazaa, A., Monnet, X., Morelli, A., Payen, D., Pearse, R. M., Pinsky, M. R., Radermacher, P., Reuter, D. A., Sakr, Y., Sander, M., Saugel, B., Singer, M., Squara, P., Vieillard-Baron, A., Vignon, P., Vincent, J. L., van der Horst, I. C. C., Vistisen, S. T. & Teboul, J. L., Dec 2021, In: *Annals of Intensive Care*. 11, 21.

Persistent Opioid Use After Spine Surgery: A Prospective Cohort Study

Uhrbrand, P., Helmig, P., Haroutounian, S., Vistisen, S. T. & Nikolajsen, L., Oct 2021, In: *Spine*. 46, 20, p. 1428-1435 8 p.

VitalDB: fostering collaboration in anaesthesia research

Vistisen, S. T., Pollard, T. J., Enevoldsen, J. & Scheeren, T. W. L., Aug 2021, In: *British Journal of Anaesthesia*. 127, 2, p. 184-187 4 p.

SARS-CoV-2 infection and adverse outcomes in users of ACE inhibitors and angiotensin-receptor blockers: a nationwide case-control and cohort analysis

Christiansen, C. F., Pottgård, A., Heide-Jørgensen, U., Bodilsen, J., Søgaaard, O. S., Maeng, M., Vistisen, S. T., Schmidt, M., Lund, L. C., Reilev, M., Hallas, J., Voldstedlund, M., Husby, A., Thomsen, M. K., Johansen, N. B., Brun, N. C., Thomsen, R. W., Bøtker, H. E. & Toft Sørensen, H., Apr 2021, In: *Thorax*. 76, 4, p. 370-379 10 p.

Renin-Angiotensin System Blockers and Adverse Outcomes of Influenza and Pneumonia: A Danish Cohort Study

Christiansen, C. F., Heide-Jørgensen, U., Rasmussen, T. B., Bodilsen, J., Søgaaard, O. S., Maeng, M., Vistisen, S. T., Schmidt, M., Pottgård, A., Lund, L. C., Reilev, M., Hallas, J., Johansen, N. B., Brun, N. C., Sørensen, H. T. & Thomsen, R. W., Oct 2020, In: *Journal of the American Heart Association*. 9, 19, e017297.

Risk and prognosis of COVID-19 in patients treated with renin-angiotensin-aldosterone inhibitors

Vistisen, S. T., Bodilsen, J., Scheeren, T. W. L. & Simonsen, U., Sept 2020, In: *European Journal of Anaesthesiology*. 37, 9, p. 739-742 4 p.

The response of a standardized fluid challenge during cardiac surgery on cerebral oxygen saturation measured with near-infrared spectroscopy

Holmgaard, F., Vistisen, S. T., Ravn, H. B. & Scheeren, T. W. L., Apr 2020, In: Journal of Clinical Monitoring and Computing. 34, 2, p. 245-251 7 p.

Ability of an Arterial Waveform Analysis-Derived Hypotension Prediction Index to Predict Future Hypotensive Events in Surgical Patients

Davies, S. J., Vistisen, S. T., Jian, Z., Hatib, F. & Scheeren, T. W. L., Feb 2020, In: Anesthesia and Analgesia. 130, 2, p. 352-359 8 p.

Automated echocardiography for measuring and tracking cardiac output after cardiac surgery: a validation study

Juhl-Olsen, P., Smith, S. H., Grejs, A. M., Jørgensen, M. R. S., Bhavsar, R. & Vistisen, S. T., 2020, In: Journal of Clinical Monitoring and Computing. 34, 5, p. 913-922 10 p.

Journal of Clinical Monitoring and Computing end of year summary 2019: hemodynamic monitoring and management

Saugel, B., Critchley, L. A. H., Kaufmann, T., Flick, M., Kouz, K., Vistisen, S. T. & Scheeren, T. W. L., 2020, In: Journal of Clinical Monitoring and Computing. 34, 2, p. 207-219 13 p.

Predicting vital sign deterioration with artificial intelligence or machine learning

Vistisen, S. T., Johnson, A. E. W. & Scheeren, T. W. L., Dec 2019, In: Journal of Clinical Monitoring and Computing. 33, 6, p. 949-951 3 p.

Using extra systoles and the micro-fluid challenge to predict fluid responsiveness during cardiac surgery

Vistisen, S. T., Berg, J. M., Boekel, M., Modestini, M., Bergman, R., Jainandunsing, J., Mariani, M. & Scheeren, T. W. L., Oct 2019, In: Journal of Clinical Monitoring and Computing. 33, 5, p. 777-786 10 p.

Post-extrasystolic characteristics in the arterial blood pressure waveform are associated with right ventricular dysfunction in intensive care patients.

Vistisen, S. T., Moody, B., Celi, L. & Chen, C., Aug 2019, In: Journal of Clinical Monitoring and Computing. 33, 4, p. 565-571 7 p.

What the anaesthesiologist needs to know about heart-lung interactions

Vistisen, S. T., Enevoldsen, J., Greisen, J. R. & Juhl-Olsen, P., Jun 2019, In: Best Practice & Research: Clinical Anaesthesiology. 33, 2, p. 165-177 13 p.

Journal of clinical monitoring and computing end of year summary 2018: hemodynamic monitoring and management

Saugel, B., Flick, M., Bendjelid, K., Critchley, L. A. H., Vistisen, S. T. & Scheeren, T. W. L., Apr 2019, In: Journal of Clinical Monitoring and Computing. 33, 2, p. 211-222 12 p.

Current use of vasopressors in septic shock

Scheeren, T. W. L., Bakker, J., De Backer, D., Annane, D., Asfar, P., Boerma, E. C., Cecconi, M., Dubin, A., Dünser, M. W., Duranteau, J., Gordon, A. C., Hamzaoui, O., Hernández, G., Leone, M., Levy, B., Martin, C., Mebazaa, A., Monnet, X., Morelli, A. & Payen, D. & 14 others, Pearse, R., Pinsky, M. R., Radermacher, P., Reuter, D., Saugel, B., Sakr, Y., Singer, M., Squara, P., Vieillard-Baron, A., Vignon, P., Vistisen, S. T., van der Horst, I. C. C., Vincent, J. L. & Teboul, J. L., 2019, In: Annals of Intensive Care. 9, 1, 12 p., 20.

Prevalence and Temporal Distribution of Extrasystoles in Septic ICU Patients: The Feasibility of Predicting Fluid Responsiveness Using Extrasystoles

Enevoldsen, J., Potes, C., Xu-Wilson, M. & Vistisen, S. T., 1 Oct 2018, In: Critical Care Research and Practice. 2018, p. 1-8 8 p., 5697092.

Extrasystoles for fluid responsiveness prediction in critically ill patients

Vistisen, S. T., Krog, M. B., Elkmann, T., Vallentin, M. F., Scheeren, T. W. L. & Sølling, C., 22 Aug 2018, In: Journal of Intensive Care. 6, 1, 8 p., 52.

Gastrointestinal transit time and heart rate variability in patients with mild acquired brain injury

Enevoldsen, J., Vistisen, S. T., Krogh, K., Nielsen, J. F., Knudsen, K., Borghammer, P. & Andersen, H., 6 Jun 2018, In: PeerJ. 6, 14 p., e4912.

Challenge of the Mini-fluid Challenge: Filling Twice without Creating a Self-fulfilling Prophecy Design

Vistisen, S. T. & Scheeren, T. W. L., May 2018, In: Anesthesiology. 128, 5, p. 1043-1044 2 p.

Fluid loading and norepinephrine infusion mask the left ventricular preload decrease induced by pleural effusion

Wemmelund, K. B., Ringgård, V. K., Vistisen, S. T., Hyldebrandt, J. A., Sloth, E. & Juhl-Olsen, P., 11 Sept 2017, In: Intensive Care Medicine Experimental. 5, 1, p. 42

Where are we heading with fluid responsiveness research?

Vistisen, S. T. & Juhl-Olsen, P., 1 Aug 2017, In: Current Opinion in Critical Care. 23, 4, p. 318-325 8 p.

Methodology in systematic reviews of goal-directed therapy - improving but not perfect

Vistisen, S. T., Keus, E. & Scheeren, T. W. L., 1 Jul 2017, In: British Journal of Anaesthesia. 119, 1, p. 18-21 4 p.

Can Passive Leg Raising Be Considered the Gold Standard in Predicting Fluid Responsiveness?

Vistisen, S. T., Enevoldsen, J. & Scheeren, T. W. L., 15 Apr 2017, In: American Journal of Respiratory and Critical Care Medicine. 195, 8, p. 1075-1076 2 p.

Using extra systoles to predict fluid responsiveness in cardiothoracic critical care patients

Vistisen, S. T., 26 Jul 2016, In: Journal of Clinical Monitoring and Computing. 31, 4, p. 1-7 7 p.

Propofol—or regression toward the mean—increases preload dependency

Vistisen, S. T., 1 Jun 2015, In: The Journal of surgical research. 196, 1, p. 56-7 2 p.

Association between the sensory-motor nervous system and the autonomic nervous system in neurorehabilitation patients with severe acquired brain injury

Vistisen, S. T., Jensen, J., Fleischer, J. & Nielsen, J. F., 1 Jan 2015, In: Brain Injury. 29, 3, p. 374-379 6 p.

Fluid responsiveness is predicted by analysis of extra systoles following cardiac surgery

Vistisen, S. T., Nov 2014.

Method and device for predicting fluid responsiveness of patients

Vistisen, S. T. (Inventor), 16 Oct 2014, IPC No. A61B 5/0205, Patent No. PCT/DK2014/050094, Priority date 11 Apr 2013

Fluid responsiveness is predicted by analysis of extrasystoles

Vistisen, S. T., Sept 2014.

Fluid responsiveness is predicted by analysis of extra systoles

Vistisen, S. T., Sept 2014.

Fluid responsiveness is predicted by analysis of extra systoles

Vistisen, S. T., Sept 2014.

Variations in the pre-ejection period induced by ventricular extra systoles may be feasible to predict fluid responsiveness

Vistisen, S. T., Andersen, K. K., Frederiksen, C. A. & Kirkegaard, H., Aug 2014, In: Journal of Clinical Monitoring and Computing. 28, 4, p. 341-9 9 p.

Fluid responsiveness is predicted by analysis of extra systoles

Vistisen, S. T., Jun 2014.

Association between the sensory-motor nervous system and the autonomic nervous system in neurorehabilitation patients with severe acquired brain injury

Vistisen, S. T., Jensen, J., Fleischer, J. & Nielsen, J. F., Apr 2014.

Association between the sensory-motor nervous system and the autonomic nervous system in neurorehabilitation patients with severe acquired brain injury.

Vistisen, S. T., Jensen, J., Fleischer, J. & Nielsen, J. F., Apr 2014.

Heart rate variability in neurorehabilitation patients with severe acquired brain injury

Vistisen, S. T., Hansen, T. K., Jensen, J., Nielsen, J. F. & Fleischer, J., Feb 2014, In: Brain Injury. 28, 2, p. 196-202 7 p.

Variations in the pre-ejection period induced by deep breathing do not predict the hemodynamic response to early haemorrhage in healthy volunteers

Vistisen, S. T., Juhl-Olsen, P., Frederiksen, C. A. & Kirkegaard, H., 29 Oct 2013, In: Journal of Clinical Monitoring and Computing.

Ultrasound of the Inferior Vena Cava Does Not Predict Hemodynamic Response to Early Hemorrhage

Juhl-Olsen, P., Vistisen, S. T., Christiansen, L. K., Rasmussen, L. A., Frederiksen, C. A. & Sloth, E., 18 Jul 2013, In: The Journal of Emergency Medicine (Philadelphia).

Fluid responsiveness is predicted by analysis of ventricular extra systoles

Vistisen, S. T., Andersen, K. K., Frederiksen, C. A. & Kirkegaard, H., 2013.

Fluid responsiveness is predicted by analysis of ventricular extra systoles

Vistisen, S. T., Andersen, K. K., Frederiksen, C. A. & Kirkegaard, H., 2013.

Procedural aspects and physiologic mechanisms of the deep inspiratory maneuver

Vistisen, S. T., Juhl-Olsen, P., Frederiksen, C. A. & Kirkegaard, H., 2012, In: Cardiology Research and Practice. 2012, p. 961423

Automated pre-ejection period variation predicts fluid responsiveness in low tidal volume ventilated pigs

Vistisen, S. T., Nielsen, J. K. & Larsson, A., 2010, In: Acta Anaesthesiologica Scandinavica. 54, 2, p. 199-205 7 p.

Prediction of fluid responsiveness in intensive care

Vistisen, S. T., 2010, Aarhus Universitet.

Reply on letter: Automated pre-ejection period variation indexed to tidal volume predicts fluid responsiveness after cardiac surgery

Vistisen, S. T., Struijk, J. & Larsson, A., 2010, In: Acta Anaesthesiologica Scandinavica. 54, p. 123-124

Should dynamic parameters for prediction of fluid responsiveness be indexed to the tidal volume?

Vistisen, S. T., Koefoed-Nielsen, J. & Larsson, A., 2010, In: Acta Anaesthesiologica Scandinavica. 54, 2, p. 191-8 8 p.

A new method for reducing the risk of oxygen toxicity in apnoeic oxygenation with extracorporeal CO2 removal

Nielsen, N. D., Granfeldt, A., Kjærgaard, B., Vistisen, S. T. & Larsson, A., 2009.

Automated pre-ejection period variation indexed to tidal volume predicts fluid responsiveness after cardiac surgery

Vistisen, S. T., Struijk, J. J. & Larsson, A., 2009, In: Acta Anaesthesiologica Scandinavica. 53, 4, p. 534-42 8 p.

Bør pulstrykvariationen indekseres til tidalvolumen?

Vistisen, S. T., 2009.

Prediction of fluid responsiveness in acute respiratory distress syndrome patients ventilated with low tidal volume and high positive end-expiratory pressure

Vistisen, S. T. & Larsson, A., 2009, In: Critical Care Medicine. 37, 6, p. 2146

Should pulse pressure variation be indexed to tidal volume?

Vistisen, S. T., 2009.

Using an expiratory resistor, arterial pulse pressure variations predict fluid responsiveness during spontaneous breathing: an experimental porcine study

Dahl, M., Vistisen, S., Koefoed-Nielsen, J. & Larsson, A., 2009, In: Critical Care. 13, 2, p. R39 9 p.

Should dynamic parameters for assessment of fluid responsiveness be corrected for tidal volume?

Vistisen, S. T., Nielsen, J. K. & Larsson, A., 2008.

Activities
